Relevant Experience

Front End Developer · UI/UX · Team Lead

- Build, style, and ship high-quality front-end and full-stack web applications, with a growing focus on SaaS platforms using technologies like JavaScript, TypeScript, React, Next.js, Tailwind CSS, and Supabase
- Lead and collaborate in agile, fast-paced environments—frequently taking on both design and development roles to deliver seamless digital experiences
- Participate in hackathons to accelerate learning, rapidly prototype real-world solutions, and collaborate with diverse, cross-functional teams
- Contribute to UI/UX design, frontend architecture, and project leadership, while actively expanding backend skills to support full-stack development
- Passionate about team-driven development, clean design systems, and building meaningful software that solves real-world problems

Team Lead · FarmChain

ICP Hackathon — June 2025

- Built with Motoko
- Lead the team to the top 10 finalist and placing 6th place out of 50 teams that joined

Developer · Team Lead · CrowdCon
